That is the end of Part one you. Now have half a minute to check your answers

Part 2

You are going to hear a talk given by a tour guide about travel set as near. First look at questions 11 to 14. As you listen to the first part of the talk answer questions 11 to 14.

Hello everyone. As you know this agency has specialized in tours and independent travelled as near for over 20 years. It's a magnificent place to visit. But it's not always as easier or as comfortable as it might be. So this tour is designed to help you handle the bureaucratic hassles. And give you time and energy to enjoy the beauty of this breathtaking country. The first hassle is visas. Nowadays as Nyan visas are needed by almost all nationalities. The normal visa lasts for just **Q11 90 days**. But a renewal is possible. It is worth leaving yourself plenty of time. When applying, I suggest, from experience, to months. That should do it! The latest confirmed price is **Q12 30 pounds** but it should be noted. And a lot of our regular travelers tell us that the price may change without notice and hold up visa processing. So ring up the Eze nyun embassy and check the price before sending

out forms. Now, for those of you who intended to take as near as part of a longer tour and want to wait till you get to another country, do remember that some Asian consulates in neighboring countries require you to provide a letter from your own embassy! Just a **Q13 confirming your nationality**, you can find a list of major embassies throughout the world in the student handbook on **Q14 page 13**. Oh and one more thing check whether you need a multiple entry visa if you're leaving and re-entering Eze nyun on your tour before the tour.

Continues you will have a chance to look at questions 15 to 20 you as you listen complete the summary and answer questions 15 to 20.

Now some miscellaneous general advice. Firstly if you're rich enough to bring in over \$1,000 in cash or traveler's checks to as near, you need to fill in the **Q15 currency form**. Don't forget this! You could get into trouble if you do. You must declare for all of your items, and more expensive items, such as video cameras, on the **Q16 tourist export form** which you can arrange to carry in advance. Regarding health regulations, although Eze is becoming a generally healthier country with every passing year. Neighboring countries remain cautious with regards to health standards there. And therefore it is worth while carrying a health certificate. The one you need is the **Q17 BM276**. Now, all of you here are students and there will be plenty of concessions for young people traveling in Eze. Eze naeun Transport Authority for example, issues a special youth fare card which you can get in any railway station. Just show your **Q18 international student card**. Information about getting this is in the handbook. And give to passport photos and by the way because there is so much bureaucracy in Eze Nia, we invite you to take at these **Q19 12** passport photos with you. They're not always easy to get done there. Finally a bit more about currency. Pounds won't get you very far in Eze these days so they're no good we advise people to carry it either yen or **Q20 Australian dollars**. US Dollars are starting to cause difficulties because of political disputes. Another surprise is that credit cards are virtually useless, because of fraud scandals. Do carry tableaus checks! But we advise medium denominations. Large denominations increase the likelihood of theft and small ones increase commission charges. Now as I mentioned earlier this Student Handbook has a wealth of information.

That is the end of Part 2 you will now have half a minute to check your answers you.

Part 3

In this section you will hear a discussion about shopping habits. First look at questions 21 to 24. As you listen to the first parts of the discussion answer questions 21 to 24.

Dale: Ah... Excuse me! I wonder if you'd mind answering a few questions. You see..

[Access https://ieltsionlinetests.com](https://ieltsionlinetests.com) for more practices

I'm doing a project.

Woman: Fine what's this on?

Dale: Well.. I'm looking at the people's shopping habits.

Woman: Okay.

Dale: Can I ask you first of all are you a student?

Woman: Well.. I was a student here last year but since then. I've left and I'm working in a bank now as a **Q21 cashier**. I just came to see a friend.

Dale: Oh, that's okay. So how often do you go shopping?

Woman: Oh.. I buy a lot of books. Should I exclude books?

Dale: Uhm.. if you leave books aside what about shopping for all your personal items? study things and that sort of thing?

Woman: Okay. Because I go to the supermarket almost every day, it seems the other things I'd say I tend to do it every other week.

Dale: And do you spend the same amount each time?

Woman: I guess so. I only have about a hundred pounds a month spare, so I'd probably spend about **Q22 fifty pounds** each time.

Dale: What sort of shops do you like best? The department store or the small retail outlets?

Woman: Oh.. I like **Q23 big department stores**. So everything's in one place. The weather's so bad so it's a bit miserable trudging from one little shop to another.

Dale: Great. What do you find most difficult to buy?

Woman: What do you mean?

Dale: Well.. what do you have to really search for? What takes you a long time to find?

Woman: Oh jeans definitely! You can get hold of a sweater or a CD in a moment. But with **Q24 jeans** I can spend all afternoon and still not find a pair that fits.

Dale: Okay. One last question. Who do you usually shop with?

Woman: Wow? I usually go shopping on my own but if I want to make it more of a social occasion with friends to have a coffee and things. I often go with colleagues from work you know in our lunch hour.

Dale: Well, thank you very much! You've been very helpful.

Woman: No problem.

Before the next part begins, you will have a chance to look at questions 25 to 30. As you listen answer questions 25 to 30.

Woman: Hello Dale! How did you get on with your shopping inquiries?

Dale: Well.. I got 50 people to answer questions and the results were quite interesting.

Woman: Okay. Let's have a look.

Dale: Well.. Those were handouts and here you can see that the majority people I interviewed said they went shopping once a week. Most often that was the weekend.

Woman: Right.

Dale: For those people who spend enormous amounts of money, if you see this chart you can see that half the people spend **Q25 45 pounds** a month. And while 15 % of people spent more than that an average of **Q26 75 pounds**. The rest spend relatively small amounts even the regular shoppers spend no more than **Q27 20 pounds** a month.

Woman: Window shoppers?

Dale: Yes. I asked him what kind of shops they prefer and the response was unanimous. Everyone went for department stores. I think that's what young people today want.

Woman: That's understandable and that's a useful statistic I think.

Dale: I also talked to them about the things they found most difficult to buy. I thought the answer was going to be something like books or study materials but he's always closed. They have problems with things related to hobbies. As far as **Q28 sportswear** is concerned they complain about the lack of shops that sell it. Not many had trouble buying sweaters and things like that but **Q29 shoes** and **Q30 trousers** were really problematic.

Woman: Was that again because there just isn't enough variety?

Dale: Yes. They say everywhere they just come across the same styles. So they just give up after a while.

Woman: I know what they mean.

Dale: Lastly, I asked them who they want to shop with.

That is the end of Part 3. You will now have half a minute to check your answers.

Part 4

In section you will hear a lecture about study. And answer questions 31 to 40. First look at questions 31 to 40. As you listen to the lecture answer questions 31 to 40.

Can anybody hear me? Is this microphone working? Good! Now welcome everybody to the second of these lectures on successful study at college. Yesterday we looked at housekeeping issues, where to find information how to use the library, computer system and so on. Today we're going to cover an issue that will be vitally important to you all throughout your time here at college and that is time management.

Hundreds of books have been written about time management and those of you who are interested in doing some extra reading on the subject are very welcome to see me after the lecture. **Q31** As I have a book list here and some other useful materials. Now time management.

Q32 In the past this used to mean making a list to plan for every hour of the week and then try to stick to this plan. These days however the whole idea of managing time has changed. In fact if you think about it, you'll find that it's impossible to manage time it just goes. So what you really need to manage is yourself. To manage yourself effectively you need to have a clear idea both of what you want to achieve and how to achieve it. **Q33** In other words you need to set goals and you

need to move towards achieving these goals, in an efficient and systematic way.

Q34 Most coursework at the college is set by mid semester and at the end of the semester usually involves two written assignments of between 1,500 and 3,000 words in length. If you look around you at college you will see that during the first weeks of the term, everyone looks cheerful and focused. Followed by a change around week six, assignment time when people start to look a bit stressed.

Q35 The library reports that an increasing number of students become angry when books are not available. so what's happened? Has everybody becomes suddenly irritable and angry for no reason? Not quite. The reason is that people have not managed their resources well. They have not set priorities for reaching their goals and, as a result, some of them realize they're going to do badly with their assignments, this will not be because they lack intelligence or love of the subject. They will fail because they did not have a clear eye dear of what they have to do and how long it should take them. Let's step back a minute.

What do we mean by establishing goals? Well basically it means deciding what you want to achieve. In other words deciding on the results that you want to achieve. The students that I've mentioned found themselves very stressed. Mainly because they have an assignment to do. But they did not fully think through the effect that this would have on their day-to-day life. **Q36** There's an awful lot of spare time in a day, for example, if you manage to spend some of that time, even just one hour on

an activity that helps you with your study, that one hour could have a major impact in your course. Particularly if you make it a regular habit. I'd like to ask you now to have a look at the planners in your information kits. You will see that there are 3-1 term planner, one weekly planner and one daily planner the term planner. Is to help you get an overview of everything that you will need to do for the term. **Q37** The weekly planner is to help you week by week and the daily planner will help you with the really detailed planning. Before we go any further I would like you to make a note in your daily planner right now. I want you to picture how you could make a major difference in your life, by spending just one hour a day on some activities for the next term.

Background reading for example or preparing a bibliography. Now imagine the benefit at the end of the term. The term diary and the weekly diary are the most important ones. However **Q38** a week is really the shortest time you have **Q39** to establish an overview of your time for planning purposes. Now you need to set priorities for the term. Work out how you could achieve those priorities and the results that you desire. If you can get into the habit of planning like this, **Q40** you'll soon find that you've actually had more time than before to spend on relaxation and other activities that you enjoy. Now let's share some of the ideas that you've come up with. I'll divide you up into groups to share your ideas. Okay.

That is the end of Part 4. You will now have half a minute to check your answers.
